

Avant believes that Every Student, of any age, can learn and thrive. Avant creates connections for educators and students with evidence, data, and observation to inspire and support relevant personalized learning – anytime, anywhere – in and beyond the classroom.

**Avant's iCAN<sup>®</sup>** provides teachers and students with the information and structure to guide and demonstrate growth of proficiency on an ongoing basis. With iCAN, students can be engaged learners - setting goals and demonstrating competency anytime, anywhere. With iCAN, teachers can review, comment, coach and advise students using 21st Century tools integrated into the iCAN™ platform.

#### **Students can:**

- Self-assess and demonstrate what they can do with language
- Create evidence in real world activities and upload to **iCAN<sup>®</sup>** (text, video and/or audio)
- Build a portfolio of evidence connected to specific iCAN statements
- Set goals for higher levels of proficiency related to ACTFL performance guidelines
- Access graphical reports for easy tracking of growth and accomplishments
- Interact with teachers/coaches for guidance and support
- Learn according to their own goals, interests, and needs

#### **Teachers can:**

- Coach individual and groups of students towards language goals
- Review student evidence, provide feedback (text, video and/or audio) and verify students' "iCANs"
- Assign rubric and iCAN statement-related tasks from text books and/or real world scenarios
- Access graphical reports of individual and group progress in proficiency related goals and tasks
- Be confident that they understand the strengths, needs and interests of every student

#### **iCAN<sup>®</sup>** is:

- Web-based for access anywhere, anytime
- Appropriate for middle school, high school & institutions of higher education
- Language neutral – can be used for learning any language
